WEATHER MAN

Greater Part of Sunday Afternoon and Evening.

AGE BY REASON OF STORM.

is running at a low ebb, and with its receding, hope begins to vanish.

No one in these days of materialism and haste and hurry any longer have the patience of Job, yet many are moved to implore in the wail of that long-suffering soul, "How long, Oh Lord, how lang?"

There ought of right be an end to all things, but folks are beginning to reckon that there isn't any to the wretched weather that this infernal administration

By some hook or crook the Republican administration managed to stave off the storm on Saturday long enough for the veterans to have their parade. As soon as that was over, however, the same corrupt tactics were again employed, and, in spite of all the filibustering that was done, it proved of little avail. Yesterlay the same shameful and shocking and disgraceful policy was pursued by the Republican administration in Washington. Utah has bided its time and contained ts soul in patience, but the limit has been reached. A warning word is that the fellows who run this weather busi-ness would better watch out lest some-

thing bite them. Yesterday was the day when every-body planned for, oh, so many fine out-ings. They were going to Saltair and Lagoon and the Salt Palace and into City Creek canyon and to Liberty park and into the hills and the vales and the dales. They all were going to have so grand a time on the first Sunday after

"season" opened. Mark the disappointment. Rain, rain, more rain and yet more rain. Pretty frocks and fetching hats are in bedraggled ruins this morning which yesterday were Peducing the Amount to calculated to start the conflagration that would consume the world. So pitiful, and yet more pitiable.

What the Resorts Lose.

The resorts, by reason of yesterday's rain, lost many, many thousands of dol-lars which ought to be snugly tucked away in the coffers of the management. At Saltair the crowd was extremely small. The chill in the air caused many to re-turn to the city after a brief turn about the pavilion. The airship which was posito have navigated the upper world failed to sail.

At Lagoon the downpour of rain is said to have been terrific. At a quarter to twelve o'clock, one man said who was there—and he looked the part—the rain was the heaviest he had seen in all of his lifetime, and he was by no means a product of yesterday.

Liberty park was not inviting. It was

too cold and too wet. Salt Palace drew a few, but the crowd was far from that which usually gathers there. The drives and the strolls and the hill climbs that had been planned with eager anticipation vere not on the cards.

It was a dreary, weary, dismal, dark sunday, and that's about all it was.

What Will Happen Today?

The prediction of the local bureau given yesterday forenoon was to the effect that there would be showers last night. There were. It was to the effect, furthermore, that there would be frost last night. There was. The bureau, being wise in its age and generation, did not venture a prophecy on the weather for today. This is well for the bureau.

The meteorological report for the day gives only an eighth one-hundredth part of an inch as the precipitation. That was up to 6 o'clock. The bureau is wrong. More rain than that fell before 6 o'clock, and a mighty sight more after 6 o'clock. The excess since the first of the year now is more than an inch, and the records for all may months have been exceeded. The total precipitation for the month of May up to 6 o'clock last evening was 5.63 inches, which, as the feller sez is some water.

sez, is some water.

The report in detail is: Temperature at 6 p. m., 43 degrees; maximum temperature, 51; minimum temperature, 42; mean temperature, 46, which is 17 degrees below normal. Total deficiency of temperature since the first of the month, 200; accumulated excess of temperature since January 1, 29 degrees; total precipitation, .08 inch; total precipitation since first of month, 5.63 inches, mulated excess since January 1, 1.09 inch. Relative humidity at 6 p. m., 86 per cent.

THE BOND ORDINANCE AGAIN

Reducing the Amount to \$400,000.

Another attempt will be made at the ouncil meeting this evening to bring up the bond issue ordinance. During the week Mayor Bransford has endeavored to settle the differences existing between the "American" insurgents led by Tom Black and the other party members in the council, so that the ordinance may be passed in its present form. When the bond question came up last week, Black, backed by Wood and Raybould and the Democratic members, succeeded in securing postponement for one week. They all stated that they had not had opportunity to delve into the propo-

BEREFT BARBER DISCOVERS HIS VEST AND TROUSERS ON ANOTHER MAN

The four local chapters of the Girls' Friendly society were largely represented at the gathering in St. Mark's cathedral yesterday afternoon, when Bishop Knight delivered an effective sermon.

"The object of the society," he said, "is to manifest the divine life in the community by being neighborly and giving opportunity for the best influences to growth is an indication of the seed or divine presence. The opportunity for growth is the only thing that God gives; not the full corn in the ear, but the seed.

In the sphere of the Girls' Friendly society, he gives the opportunity of influence, and how great is the force of influence, and how great is the force of influence, for example, the influence of influence of influence, or of influence of influence of influence of of the council saloon. The man was discovered that the gathering, Joseph Johnson, Jo

Laudanum Was Taken With Suicidal Intent.

After several hours of desperate efforts, Salt Lake, who drank four ounces of lauweek. They all stated that they had not had opportunity to delve into the proposition and wanted another week to think it over.

It is the general opinion that Black will insist on a \$400,000 issue, instead of one of \$500,000 as the mayor desires. The only apparent reason for asking this reduction on Black's part is that he desires to "show his authority." Black has been angry ever since he was deposed from the position of chairman of the engineering committee and is taking this meering committee and is taking this and the others who took a hand in his dethronement.
